

Job Advert

Orthotist, Roehampton

Exciting opportunity to be a part of one of Opcare's flagship prosthetic services

Opcare, part of the AM Healthcare, is the largest supplier of prosthetic and orthotic services to the NHS. As a company we aim to continuously improve the services we deliver and develop those who work for us.

**Looking to take the next step upwards in your career pathway?
Looking to join one of the fastest growing clinical service delivery companies in the UK?**

Do you:

Want to join an organisation and team that believes in putting the patient first and focuses on improving the lives of individuals through innovation and service development?

Want to join a team that focuses on staff and people development?

Have access to innovative and emerging orthotic 3D print technologies?

Working at Roehampton

Opcare have been providing the orthotic service in Roehampton since 2008 and have recently been re-awarded the contract, this role is an excellent opportunity to have a key influence within the service to advance and improve the delivery of the service.

Based in the South West of one of the most exciting City's in the World – London! The area is bustling with lots to do with lots of International professional working the area. The City centre with all the world famous landmarks and attractions is a short tube ride away and on your doorstep you have Richmond Park and the leafy suburbs of SW London – you can even pop and see the Tennis at Wimbledon!

The Orthotic Department is based in the Douglas Bader Rehabilitation Centre within Queen Mary's Hospital, where we provide inpatient, outpatient and community orthotic care for a wide variety of patients. There is a complex mix of MDTs and extended practice clinics which provides a great opportunity to be exposed to interesting and varied caseloads.

St George's University NHS Foundation trust provide specialist services for South-West London including Spina Bifida, Ponseti and spasticity, all of which the orthotic team are an important part of.

There is a large on-site workshop with skilled staff providing a collaborative working approach to device design and manufacture.

Job Summary:

We are currently seeking an experienced Orthotist who is looking for an opportunity to be develop their career and be a part of our large and dynamic team in Roehampton.

The role will involve working with a complex clinical case load, it will present exciting opportunities to develop clinical and leadership skillsets. The role will be instrumental in

working with the orthotic team, consisting of clinicians, technicians and wider NHS MDT to advance and improve the delivery of the service.

There are a wide variety of MDTs and extended practice clinics including, but not limited to:

- In and out-patient clinics for neurological conditions
- Paediatrics
- Scoliosis bracing
- Diabetic foot
- Foot and ankle
- Theatre casts and removals

Key Responsibilities & Tasks:

Some of the key responsibilities the role holder will have responsibility for:

- Ensure the delivery of high-quality care for all patients and the smooth running of the service
- Working closely with multi-disciplinary teams (MDT's) across Queen Mary's and St George's Hospitals
- Inputting and leading on initiatives within the centre service development plan

This role will provide an opportunity for an ambitious clinician to step into a position that will challenge them and provide opportunities to develop clinically across a range of practice areas.

The successful candidate will join an enthusiastic and busy team, and be supported with local, regional, and national training to develop their clinical skills to support the service. We aim to deliver a first class service for users whilst applying the most advanced and exciting clinical and technical solutions available to patients.

Qualifications:

Either:

- Certified Orthotist
- HND Orthotics
- BSc Orthotics

Must also be fully HCPC Registered and preferably members of BAPO.

What do we offer?

- Competitive market salary
- Industry leading training opportunities
- Access to innovative scanning and 3D technology
- Management development
- Access to UK & Global clinical conferences
