

# In Focus

## Donna Fisher

Prosthetist/Orthotist - Head of Clinical Services at Ottobock.

### What is the best thing about your job?

The Paralympics is the pinnacle of achievement for some of the people we help and for us as Prosthetists and Orthotists, but it's what we do every day, that enables people to reach their potential.

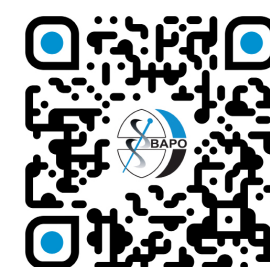

### Describe your job in three to five words

Extremely rewarding, emotional and humbling, always learning.

### What advice would you give other people interested in your role?

Do you want to make a difference in people's lives? If you are interested in problem solving through engineering, science and understanding people, you can help make a difference and have a wonderful career looking after people living with disability.
