

In Focus

Mim Langschova

Prosthetic and Orthotic Administration support

What is the best thing about your job?

The best part of my job is how wide-ranging it is, from graphic design through website management to education and membership coordination. I love that our opinions are heard and actively sought and that our work is appreciated. I have a balanced blend of working individually and at the same time working with the amazing team that has supported me from the moment I started my role.

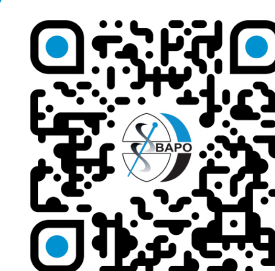

Describe your job in three to five words

Satisfying, diverse, challenging

What advice would you give other people interested in your role?

Go for it, don't be afraid to start something new!
