## Clinical Specialist Orthotist

### Chesterfield

#### Clinical Specialist Orthotist – Spinal Deformities

An exciting opportunity has arisen for an enthusiastic Orthotist to join a global leader in conservative management of scoliosis and hyperkyphosis in children and adults.

#### Role Overview

Applications are invited from both recently qualified and more experienced orthotists looking to clinically advance their careers.

Previous experience in scoliosis treatment would be an advantage but is not essential. We offer a unique opportunity for rapid progression to becoming a recognised clinical specialist in the field.

Full training and mentor support will be provided by our existing team of clinical specialists. The role will involve research and education in collaboration with local universities as well as clinical work both in NHS and private clinics. As part of your training and ongoing professional development as a clinical specialist you will be expected to publish and present research work both nationally and internationally.

Membership of relevant professional societies such as the British Scoliosis Society (BSS), The International Society on Scoliosis Orthopaedic and Rehabilitation Treatment (SOSORT) and Scoliosis Research Society (SRS) will be encouraged and supported.

#### Key Responsibilities

- Delivering the highest quality care and optimal outcomes
- Active contribution to R&D, new products and service protocols
- Involvement in clinical trials
- Implementation of clinical new technologies
- Working closely with multi-disciplinary teams (MDT's)
- Provision of training to healthcare professionals at all levels
- Presenting research work
- Publishing research work

Essential Requirements	Desirable Attributes
Certified Orthotist, HND Orthotics or BSc Orthotics	Previous scoliosis bracing experience.
HCPC Registered and preferably a member of BAPO	Radiological referrer qualification.
Computer literate (MS Office - Excel, Word, PowerPoint etc)	Interest/knowledge/experience of emerging technologies, e.g. AI & 3D printing.
Good practical hand-skills and attention to detail.	Knowledge/experience of Rodin 4D software.
Good people/man-management skills.	Previous research experience.
Minimum of 3 years' post qualification experience.	Desire to positively impact the lives of others.
Willingness to learn.	Enjoy international travel.
Able to work independently.	
Able to work out of Chesterfield HQ.	
Experience working with children and adults.	
Good communication skills.	
Hold a full UK driving licence.	

#### Package

- Salary NHS band 6-7 depending on experience
- 37.5 hours/week
- 25 days annual leave per year plus statutory bank holidays
- Pension contribution
- Laptop
- Smart Phone
- Free onsite parking
- Company car allowance
