

Have you ever thought about a career in orthotics?

We need more orthotists

Orthotics can offer you a range of career opportunities where you can make a difference. It involves a mix of engineering, science, technology, problem solving, working with people, anatomy, and pathology.

If you are interested in a career in orthotics or you know someone who may be interested, you can find out more at www.bapo.com, scan the QR code, or email careersinpando@bapo.com
